REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed on 11/02/06 overcomes the technical deficiencies and the prior art rejection. Claims 1 and 5-31 are allowed because the prior art of record fails to suggest the "input signal having a baud period and decreasing the magnitude of said output signal to at least one subsequent voltage level, each said at least one subsequent voltage level substantially constant for a subsequent period of time less than said baud period and being smaller in magnitude than the immediately prior voltage level and greater in magnitude than said input voltage level" as combined in claims 1 and 14, "input signal having a baud period and sinking the first and second amounts of current" as combined in claim 10, "input signal having a baud period and the control logic" as combined in claim 15 and 29, and "input signal having a baud period and means for decreasing the magnitude of the output signal" as combined in claims 30-31.

CONCLUSION

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DINH T. LE whose telephone number is (571) 272-1745. The examiner can normally be reached on Monday-Friday (8AM-7PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY CALLAHAN can be reached at (571) 272-1740.
